Introduction...

Vision

To attain customer satisfaction by delivering the best, by emphasizing quality, innovation, and efficiency, creating a world-class infrastructure with the most reliable, manufacturers of the highest quality fabric.

Mission

Zaid Export is committed to the consistent growth and improvement of both responsibilities towards employees and customer satisfaction through timely deliveries along with enhanced quality and value.

About Us

Since 2022, we at Zaid Export with its policy of quality fabric with customer satisfaction and mastered a source manufacturing an impressive fabric range. Zaid Export reaches out to global customers with diligence, superior quality, and delivery excellence.

Mr. A. Syed Mukkthar Ahamed / Mrs. S. Afredha – Founder (Zaid Export)

A. Syed Mukkthar Ahamed very early learnt the value of discipline, hard work and integrity. In 2022, he set upon his entrepreneurial journey with Zaid Export. His current role within Zaid Export is to look at forward-looking business expansion strategies and cost optimization.

Mr. K. Sadhanadham - Product Manager (Zaid Export)

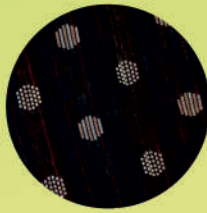

After a brief stint with three textile companies, he joined Zaid Export in 2022. He has more than 1 decade of rich experience in textile production and trading. He has played a pivotal role in the success of the textile business at Zaid Export. As a PM, his dynamism and dedication have steered the business to its present heights.

SUSTAINABLE FABRICS

Our collections are made from organic, renewable, biodegradable and regenerated fibre. Entirely committed to production, we design with longevity in mind.

ETHICALLY MADE & TREATMENT OF ANIMALS

Independent audits and accreditation bodies, we support fair wages, no child labour, workers rights, gender equality, grower communities. Farmers commit to the highest grade of animal welfare, environmental care & social responsibility.

ENVIRONMENTAL PRACTICES

We are committed to designing beautiful ethical and sustainable collections and will continue to find ways in which we can develop and innovate our clothing without costing the earth.

ENVIRONMENTAL FRIENDLY DYES & WASHES

All our fabrics from organic cotton, plant fibre fabrics, sustainable fabrics is processed and dyed with low impact, heavy metal free dyes to ensure skin friendly and environment friendly for the planet.

LYOCELL

We use Tencel/Excell, a biodegradable fibre made using wood pulp from Forest Stewardship Council certified forests. Our Tencel is produced within a closed loop, which re-circulated all over water used in manufacture.

ORGANIC COTTON FARMING

Organic farming is achieved through companion planting, corporations and onsite green waste composting, helps to preserve the entire Ecosystem. Crops are exclusively rain fed & hand picked several time during the season.
